**Re** APE 2022 BLOOD CHEMISTRY

---

Our annual APE benefit coverage includes FBS, Uric Acid and Creatinine blood tests. Unfortunately, these were missed out and were not processed by our service provider during our APE last November 2022. In this regard, we need to have a retake of the blood chem procedure to complete the tests.

The retake is scheduled on **January 11, 2023 (Wednesday) from 7:30am – 10:30am only at 4th floor ALSC Corporate Center.**

Employees listed in the appending pages are requested for re-extraction and FASTING of 8-10 HOURS IS NEEDED.

Partial APE result copies are available at Compensation & Benefits Section upon request, otherwise all will be released on January 2023.

For your information and guidance.

**MA. SHIELA G. MANALO**

Chief Human Resources Officer
